

# HALIFAX SQUADRON-CPS

## April 12, 2008

The Halifax Squadron has had an active training season. This winter we have run the following courses: Boating, Advanced Piloting, Piloting, Marine Maintenance and Celestial Navigation Courses. The Training Department have also had three Boat Pro and four Marine Radio Courses. These courses had very good numbers attend. We also put on the Navigating with GPS, Electronic Charting and Radar for Pleasure Craft with good numbers in attendance. We are planning an additional Boat Pro and Marine Radio Courses in May.

The Social Officer had an evening for our members starting with a dinner followed by a talk by Silver Donald Cameron on his latest book, *Sailing Away from Winter*. There were about 80 members present. We are having a safety evening in conjunction with the Armdale Yacht Club for our members. Over the summer months we plan a couple of raft-ups and meet and greets.

Our AGM and Graduation night is planned for June 7, 2008. The committee is starting to work on finalizing plans.

Our monthly Bridge Meetings are productive and have a good attendance by the bridge members.

Respectfully submitted,

Sarah-Jane Raine  
Commander
